SOCK DOCTOR

PRODUCT

PRESENTATION

CONCEPT

MEME SOCKS

This concept is for the Sock Doctor brand which is under Sexy Socks. These socks are meant to offer a great value of fun and quirky design cotton socks. They are seen as great gifting options and are sold mainly in pharmacies etc.

Tasked with designing a sock for Sock Doctor, I came up with the 'Meme Socks'. These are socks designed around the idea of contemporary memes, which is something I feel would appeal to the audience of this generation since the internet and memes play a big part in our daily lives.

DESIGN

MEME SOCKS

The design is inspired by the simplicity of memes, so they are only offered in black and white with white being the primary colour and black being the accent colour. This is a draft of the design and it was done via Adobe Illustrator.

DESIGN

FINAL DESIGN

These are the final designs of the Meme Socks for the Sock Doctor brand. I made use of three examples to convey the idea.
